Important Information

After submitting an enrolment request you will be contacted by a member of our team to complete a questionnaire. The questionnaire must be returned before your enrolment can be finalised.

Who Is This Course For?

This qualification is designed for a wide range of learners who wish to gain an understanding of the prevention and control of infection within healthcare settings.

What Can I Learn On This Course?

This qualification aims to help learners to understand:
The meaning and importance of infection control

The causes of infections, the conditions in which they thrive, and the ways that they can be spread

Methods used to prevent and control the spread of infection

How Is This Course Delivered?

Although this is an online course, you will receive extensive individual support throughout your studies. Your dedicated tutor is available to provide guidance and answer questions via email, telephone, Microsoft Teams calls,

or in-person meetings. This approach ensures that you can study flexibly but have access to regular support in a way that suits your personal circumstances.

What Will I Need To Bring With Me?

To complete the course, you will need access to a computer and the internet. You will be given access to an online assessment account (e-assessor) to record and document your learning evidence.

What Skills Or Experience Do I Need?

No prior qualifications, experience or skills are needed, but you may find it helpful if you already achieved a level 1 qualification. You will also benefit from possessing basic IT skills to allow you to access the online materials.

How Will My Work Be Assessed?

This course is awarded by NCFE.

You will receive your own study pack made up of high-quality workbooks which your assigned specialist tutor will guide you through to complete your studies. You will be expected to complete all assessments on e-assessor, and your tutor will provide feedback after each assessment.

To be awarded the Level 2 Certificate in the Principles of the Prevention and Control of Infection in Health Care Settings, learners must achieve 4 mandatory units:

- Unit 01: Principles of the causes and spread of infection in healthcare settings
- Unit 02: Principles of the importance of personal hygiene and health in the prevention and control of infection in healthcare settings
- Unit 03: Principles of decontamination, cleaning and waste management in healthcare settings
- Unit 04: Principles of infection prevention and control in healthcare settings

What Can I Do After The Course?

You could progress onto other Online Learning programmes such as:
Level 2 Certificate in Falls Prevention

Level 2 Nutrition and Health

Level 2 Safe Handling of Medication in Health and Social Care

You may also wish to consider classroom-based learning such as Get Into Care, which focuses on getting job-ready to work in the care sector. Your tutor will be happy to discuss your options with you.
