Important Information

After submitting an enrolment request you will be contacted by a member of our team to complete a questionnaire. The questionnaire must be returned before your enrolment can be finalised.

Who Is This Course For?

This qualification is designed for those looking to start work in, or are already working in, health and social care, who would like an understanding of common health conditions and their effects on individuals.

What Can I Learn On This Course?

This qualification aims to develop the learner's knowledge and understanding of:
Various common health conditions

Monitoring the health of individuals affected by health conditions

The purpose of this qualification is to give learners currently working in (or intending to work in) adult health and social care an awareness of a range of common health conditions. Learners may then progress to additional qualifications to gain a more in-depth understanding of specific health conditions.

How Is This Course Delivered?

Although this is an online course, you will receive extensive individual support throughout your studies. Your dedicated tutor is available to provide guidance and answer questions via email, telephone, Microsoft Teams calls, or in-person meetings. This approach ensures that you can study flexibly but have access to regular support in a way that suits your personal circumstances.

What Will I Need To Bring With Me?

To complete the course, you will need access to a computer and the internet. You will be given access to an online assessment account (e-assessor) to record and document your learning evidence.

What Skills Or Experience Do I Need?

No prior qualifications, experience or skills are needed, but you may find it helpful if you already achieved a level 1 qualification. You will also benefit from possessing basic IT skills to allow you to access the online materials.

How Will My Work Be Assessed?

This course is awarded by NCFE.

You will receive your own study pack made up of high-quality workbooks which your assigned specialist tutor will guide you through to complete your studies. You will be expected to complete all assessments on e-assessor, and your tutor will provide feedback after each assessment.

To be awarded the Level 2 Certificate in Common Health Conditions, learners must achieve a minimum of 15 credits.

- Understand how to contribute to monitor the health of individuals affected by health conditions (2 credits)
- Introductory awareness of sensory loss (2 credits)
- Stroke awareness (3 credits)
- Dementia awareness (2 credits)
- Arthritis awareness (3 credits)
- Parkinson's awareness (3 credits)

What Can I Do After The Course?

You could progress onto other Online Learning programmes such as:
Level 2 Certificate in Falls Prevention

Level 2 Nutrition and Health

Level 2 Principles of Infection Prevention & Control

If you are seeking work in care, you may also wish to consider classroom-based learning such as Get Into Care, which focuses on getting job-ready in the care sector. Your tutor will be happy to discuss your options with you.
