Important Information

After submitting an enrolment request you will be contacted by a member of our team to complete a questionnaire. The questionnaire must be returned before your enrolment can be finalised.

Who Is This Course For?

This qualification is for anyone looking to progress into further cyber security qualifications or looking for employment in the digital industry.

What Can I Learn On This Course?

The aim of the Level 2 Certificate in The Principles of Cyber Security is to provide learners with sector awareness. It will provide the learner with an introduction and skills relating to cyber security practices, with the view to seeking employment or proceeding to further study in this area.

There are 6 mandatory units:

- Unit 1: Introduction to Cyber Security
- Unit 2: Understand Terminology Used in Cyber Security
- Unit 3: Understand Legal and Ethical Aspects of Cyber Security
- Unit 4: Understand Common Threats to Cyber Security
- Unit 5: Understand Methods of Maintaining Cyber Security
- Unit 6: Working With Others in Cyber Security

How Is This Course Delivered?

Although this is an online course, you will receive extensive individual support throughout your studies. Your dedicated tutor is available to provide guidance and answer questions via email, telephone, Microsoft Teams calls, or in-person meetings. This approach ensures that you can study flexibly but have access to regular support in a way that suits your personal circumstances.

What Will I Need To Bring With Me?

You will need access to a computer and the internet with a web browser and file storage so that you can access and complete the course and assignments. You work in your own time, flexibly, to fit into your schedule.

What Skills Or Experience Do I Need?

No formal qualifications are needed, but a basic level of IT knowledge is recommended.

How Will My Work Be Assessed?

As this is an online course, you will receive your own study pack, alongside a specialist tutor who will guide you through your studies. Your study pack includes a set of high-quality knowledge workbooks that are designed to help you learn independently through a range of reflective activities. You will also receive an online assessment account (e-assessor) where you will document your evidence. The awarding body is NCFE.

What Can I Do After The Course?

Achievement of this qualification will help support progression into a variety of job roles and occupational areas within the digital sector.

On completing the Level 2 in The Principles of Cyber Security, you may wish to progress onto further online learning courses. These courses give you an opportunity to specialise in other areas including:

Level 2 Certificate in Coding

Level 3 Certificate in Coding

Level 3 Certificate in Cyber Security
