Understanding Coding L2	25/11/2026	14/04/2027	Home Learning	0.00
Understanding Coding L2	13/01/2027	26/05/2027	Home Learning	0.00
Understanding Coding L2	03/02/2027	23/06/2027	Home Learning	0.00
Understanding Coding L2	03/03/2027	21/07/2027	Home Learning	0.00

Important Information

After submitting an enrolment request you will be contacted by a member of our team to complete a questionnaire. The questionnaire must be returned before your enrolment can be finalised.

Who Is This Course For?

This qualification is for anyone looking for an introduction to coding. It will support learners that are looking to progress into further coding qualifications or looking for employment in the digital industry. It may be helpful for learners to have completed a Level 1 digital related qualification and be comfortable using digital devices (PC/Windows or MacOS).

What Can I Learn On This Course?

This qualification aims to focus on an introduction to coding within the digital sector.

The objectives of this qualification are to enable the learner to gain an

understanding of:

- The principles of coding
- The stages of the software development cycle
- Coding terminology and the key principles of writing code
- Different coding types
- The best practices in coding

- The methods of testing and the DevOps process

- Effective communication and project management in coding

How Is This Course Delivered?

Although this is an online course, you will receive extensive individual support throughout your studies. Your dedicated tutor is available to provide guidance and answer questions via email, telephone, Microsoft Teams calls, or in-person meetings. This approach ensures that you can study flexibly but have access to regular support in a way that suits your personal circumstances.

What Will I Need To Bring With Me?

You will need access to a computer and the internet with a web browser and file storage so that you can access and complete the course and assignments. You work in your own time, flexibly, to fit into your schedule.

What Skills Or Experience Do I Need?

No formal qualifications are needed, but a basic level of IT knowledge is recommended.

How Will My Work Be Assessed?

As this is an online course, you will receive your own study pack, alongside a specialist tutor who will guide you through your studies. Your study pack includes a set of high-quality knowledge workbooks that are designed to help you learn independently through a range of reflective activities. You will also receive an online assessment account (e-assessor) where you will document your evidence. The awarding body is NCFE.

What Can I Do After The Course?

This course will prepare you for progression to:

- Level 3 Coding

Or other digital skills courses:

- Level 2/3 Cyber Security
- Microbytes Excel Level 2
- Microbytes PowerPoint Level 2
- Microbytes Word Processing Level 2
