Important Information

After submitting an enrolment request you will be contacted by a member of our team to complete a questionnaire. The questionnaire must be returned before your enrolment can be finalised.

Who Is This Course For?

This course is available as a progression opportunity for those who have completed Cyber Security Level 2.

What Can I Learn On This Course?

The aim of the Level 3 Certificate in Cyber Security Practices is to provide learners with sector awareness. It will provide the learner with a chance to develop knowledge and skills relating to cyber security practices, with the view to seeking employment or proceeding to further study in this area.

How Is This Course Delivered?

This course is part of our blended learning offer which combines online learning at home and 4 classroom taught sessions. Attendance at classroom sessions is a compulsory part of the course. You will receive submission dates for all units. If you require additional support, tutorials can be arranged.

What Will I Need To Bring With Me?

You may wish to bring a notepad and pen to take notes during face to face tutorials. You will need access to a computer, laptop or tablet for the online part of the course.

What Skills Or Experience Do I Need?

You will need to have prior understanding of cyber security and have essential digital skills to at least level 2 capability.

How Will My Work Be Assessed?

Assessment is knowledge-based only, and you will complete online learning and answer a series of questions for each unit of the qualification.

What Can I Do After The Course?

On completing the Level 3 in Coding Practices you may wish to progress onto further online/blended learning courses. These courses give you an opportunity to specialise in other areas including:

- Level 2 Certificate in Coding Practices

- Level 3 Certificate in Coding Practices
